PROFESSIONAL SUMMARY

Senior Frontend Developer / Frontend Engineer with **5+ years** of experience architecting and delivering enterprise-grade, high-performance web applications using **React.js, Next.js, JavaScript, and TypeScript**. Proven track record across Real Estate, E-Commerce, EdTech, and Whisky verticals, including **8+ production launches with Lighthouse scores of 90+**. Deep expertise in **Next.js** App Router, SSR/SSG/ISR, headless CMS (Sitecore, Contentful), and CommerceTools headless commerce. Strong command of state management (Redux Toolkit, Zustand, React Query), scalable design systems, and performance optimisation. Proficient in AI-assisted engineering workflows — Cursor, Claude Code, GitHub Copilot — to accelerate delivery. Effective Agile/Scrum collaborator across UI, backend, and product teams.

EMPLOYMENT HISTORY

Software Engineer	**Sovereign Solution India Private Limited**	Dec 2021 – Nov 2025
React.js Developer	**NY Solution**	Sep 2021 – Dec 2021
Software Developer	**Step Smith Solution**	Sep 2020 – Aug 2021

TECHNICAL SKILLS

Core	**React.js** | **Next.js 14** | **JavaScript ES6+** | **TypeScript** | HTML5 | CSS3
Styling	Tailwind CSS | SCSS / SASS | MUI | CSS Modules | Responsive Design | Ant Design | Bootstrap
State / Data	Redux Toolkit (RTK) | Zustand | React Query (TanStack) | Context API
Rendering	CSR | SSR | SSG | ISR | **Next.js** App Router | React Server Components | Server Actions
Performance	Core Web Vitals | Lighthouse | Code Splitting | Image Optimisation | SEO | Accessibility (a11y)
AI Dev Tools	Cursor | Claude Code | GitHub Copilot | OpenAI Codex | Antigravity
Tooling	Git | GitHub | Bitbucket | Jira | Webpack | Vite | Turbopack | npm / yarn | CI/CD | GraphQL
Design / Deploy	Figma | Storybook | Vercel | Netlify | Docker (basics) | AWS S3

PROJECT EXPERIENCE

Duncan Taylor Portal Dashboard

Stack: React.js, JavaScript, Ant Design, Lodash, React Chart, AWS S3

- Architected User and Store Management modules using **React.js and Ant Design 5.x** custom components, tables with server-side pagination, and a reusable responsive component library. Developed mobile-optimized UI components and layouts, streamlining order-creation workflows and enabling seamless cross-device experiences.
- Engineered a reusable AWS S3 upload component and Recharts-powered analytics dashboard, optimizing bundle size and giving admins real-time visibility into order and user KPIs.

Intelomatic – Field Force Management & Map Intelligence Platform

Stack: Next.js 14, JavaScript, TypeScript, Redux Thunk, Formik

- Spearheaded the platform's frontend architecture as Lead Developer, shipping CMS-driven pages and dynamic case-study routing that **boosted user engagement by 30%**.
- Built Formik-validated lead-generation workflows ('Book an Appointment', 'Get a Free Trial') with Redux Thunk state management, **increasing qualified lead capture by 25%**.

The Bank Restaurant Huntly Website

Stack: Next.js, JavaScript, TypeScript, CMS API, SCSS

- Directed frontend engineering as Lead Developer, shipping a fully responsive **Next.js** restaurant site optimized for fast cross-device load times.
- Integrated CMS-driven menu and table-reservation workflows, enabling non-technical staff to update content independently.

Duncan Taylor Whisky Website

Stack: Next.js 14, TypeScript, Redux Thunk, CMS API, SEO, Lighthouse

- Architected a **Next.js 14** e-commerce platform with App Router and server components across **30+ pages, achieving Lighthouse scores of 90+** for Performance, Accessibility, and SEO.
- Engineered dynamic SEO metadata via generateMetadata() with JSON-LD and hreflang tags, strengthening organic search visibility.

The Rarest Whisky Platform

Stack: Next.js, JavaScript, TypeScript, SCSS, REST API

- Crafted a fully responsive whisky brand platform for Duncan Taylor, **improving page-load performance by 30%** via lazy loading and code splitting.
- Built modular, API-driven collection pages for Port Ellen, Caperdonich, and Killyloch editions, delivering a consistent brand experience across desktop, tablet, and mobile.

Macallan Whisky Website

Stack: Next.js, JavaScript, TypeScript, Bootstrap

- Headed frontend delivery as Lead Developer, launching a premium **Next.js** brand site with seamless Shopify checkout integration aligned to Macallan's luxury identity.
- Shaped product-storytelling pages and reusable frontend components, **reducing new-page development time by 30%**.

MEEKO World – E-Learning Platform

Stack: React.js, JavaScript, TypeScript, Redux Toolkit, Bootstrap, Socket.IO, Three.js, jQuery

- Owned frontend strategy as Lead Developer, engineering role-based dashboards for students, parents, and educators to drive platform adoption.
- Built real-time classroom functionality with **Socket.IO** and Three.js, enabling live sessions and digital whiteboarding to boost student engagement.

OKAS Property Group – Real Estate Platform

Stack: Next.js, JavaScript, TypeScript, Bootstrap, REST API, Formik

- Constructed a scalable real-estate platform with Admin, Dealer, and Buyer modules, integrating REST APIs for property listings and multi-criteria search to streamline the property search experience.
- Implemented Formik-based form validation and pixel-perfect Figma-to-code interfaces across authentication and inquiry workflows.

POD World – Startup & Investor Platform

Stack: React.js, JavaScript, Bootstrap, Redux, Material UI, React Hook Form, React Table

- Created a startup and investor platform with **React Hook Form** validation and investor-matching filters, **growing qualified investor sign-ups by 25%**.
- Built Material UI admin dashboards with Redux state management and React Table infinite scrolling, **improving data-loading speed by 30%**.

KEY ACHIEVEMENTS

- Delivered **8+ scalable web applications** across E-Commerce, Real Estate, EdTech, SaaS, and Dashboard verticals using **React.js, Next.js, JavaScript, and TypeScript**.
- Drove frontend architecture as Lead Developer on 4 major platforms — MEEKO World, Intelomatic, Macallan Whisky, and The Bank Restaurant — overseeing component strategy and production releases.
- Achieved **Lighthouse scores of 90+** for Performance, Accessibility, and SEO across all **Next.js** projects through image optimisation and CI-integrated audits.
- Used AI-assisted development workflows (**Cursor, Claude Code, GitHub Copilot, Antigravity**) to **accelerate delivery by 20%** while collaborating cross-functionally with backend, design, and product teams.

EDUCATION

B.Sc Computer Science 2017 – 2020

Veer Narmad South Gujarat University
